

PLEASE continue to enforce the do not call list in its current form. I truly enjoy the void left by phone solicitors. Why dont we also get the DO NOT MAIL list in force, too. Think of the savings that would take place with re to our natural resources and postal services. I get 4+ mailings weekly from just Capitol ONE charge services alone - I continue to ask them to take me off of their mailing lists but they continue to ignore my requests. IF you need someone to pass around a petition, PLS just let me know! thank you, Barbara Unrath
